§ 108D-5.5. PHP requests for disenrollment.

- (a) In General. A PHP requesting disenrollment of an enrollee from the PHP shall submit a written request for disenrollment to the enrollment broker.
- (b) Limitations on PHP Requests for Disenrollment. A PHP shall not request disenrollment of an enrollee from the PHP for any reason prohibited by 42 C.F.R. § 438.56(b)(2). A PHP may request disenrollment of an enrollee only when both of the following criteria are met:
 - (1) The enrollee's behavior seriously hinders the PHP's ability to care for the enrollee or other enrollees of the PHP.
 - (2) The PHP has documented efforts to resolve the issues that form the basis of the request for disenrollment of the enrollee. (2019-81, s. 1(a).)
