

§ 130A-214. Duties of Department.

The Department shall study the entire problem of cancer including its causes, including environmental factors; prevention; detection; diagnosis and treatment. The Department shall provide or assure the availability of cancer educational resources to health professionals, interested private or public organizations and the public. (1967, c. 186, s. 2; 1973, c. 476, s. 128; 1981, c. 345, s. 2; 1983, c. 891, s. 2.)
