

**§ 153A-284. Power to require connections.**

(a) A county may require the owner of developed property on which there are situated one or more residential dwelling units or commercial establishments located so as to be served by a water line or sewer collection line owned, leased as lessee, or operated by the county or on behalf of the county to connect the owner's premises with the water or sewer line and may fix charges for these connections.

(b) In the case of improved property that would qualify for the issuance of a building permit for the construction of one or more residential dwelling units or commercial establishments and where the county has installed water or sewer lines or a combination thereof directly available to the property, the county may require payment of a periodic availability charge, not to exceed the minimum periodic service charge for properties that are connected.

(c) In accordance with G.S. 87-97.1, when developed property is located so as to be served by a county water line and the property owner has connected to that water line, the property owner may continue to use any private water well located on the property for nonpotable purposes as long as the water well is not interconnected to the county water line and the county shall not require the owner of any such water well to abandon, cap, or otherwise compromise the integrity of the water well.

(d) The owner of real property subject to an agreement under Article 20 of Chapter 160A of the General Statutes that is denied connection to water or sewer by a county may, notwithstanding the agreement, seek to obtain water or sewer from any other unit of local government. If a court order impacts the provision of water or sewer to real property, the owner of real property denied the provision of water or sewer shall have standing to petition the court for an order for appropriate relief and the court shall, as promptly as possible, set any such petition for hearing. For purposes of this subsection, "impacts" shall include any effect or ramification that prevents the owner of real property from seeking voluntary annexation by a city capable of providing water or sewer to that real property.
