

§ 160A-923. Removal and relocation of utility structures.

(a) The authority shall have the power to require any public utility, railroad, or other public service corporation owning or operating any installations, structures, equipment, apparatus, appliances, or facilities in, upon, under, over, across, or along any ways on which the authority has the right to own, construct, operate, or maintain its public transportation system, to relocate such installation, structures, equipment, apparatus, appliances, or facilities from their locations, or, in the sole discretion of the affected public utility, railroad, or other public service corporation, to remove such installations, structures, equipment, apparatus, appliances, or facilities from their locations.

(b) If the owner or operator thereof fails or refuses to relocate them, the authority may proceed to do so.

(c) Except as otherwise agreed, the authority shall provide any necessary new locations and necessary real estate interests for such relocation, and for that purpose the power of eminent domain as provided in G.S. 160A-921 may be exercised provided the new locations shall not be in, on, or above a public highway; the authority may also acquire the necessary new locations by purchase or otherwise.

(d) Except as otherwise agreed, any affected public utility, railroad, or other public service corporation shall be compensated for any real estate interest taken in a manner consistent with G.S. 160A-921, subject to the right of the authority to reduce the compensation due by the value of any property exchanged under this section.

(e) The method and procedures of a particular adjustment to the facilities of a public utility, railroad, or other public service corporation shall be covered by an agreement between the authority and the affected party or parties.

(f) Except as otherwise agreed, the authority shall reimburse the public utility, railroad, or other public service corporation for the cost of relocations or removals which shall be the entire amount paid or incurred by the utility properly attributable thereto after deducting the cost of any increase in the service capacity of the new installations, structures, equipment, apparatus, appliances, or facilities and any salvage value derived from the old installations, structures, equipment, apparatus, or appliances. (2025-39, s. 5.1.)
