1 A BILL TO BE ENTITLED  
2 AN ACT TO ESTABLISH A STATE-ADMINISTERED LEAD-BASED PAINT  
3 HAZARD MANAGEMENT PROGRAM IN LIEU OF HAVING A FEDERALLY  
4 ADMINISTERED PROGRAM APPLY IN THIS STATE.

5 The General Assembly of North Carolina enacts:

6 Section 1. Chapter 130A of the General Statutes is amended by adding the  
7 following new Article to read:

8 **"ARTICLE 19A.**

9 **"LEAD-BASED PAINT HAZARD MANAGEMENT PROGRAM.**

10 **"§ 130A-453.01. Definitions.**

11 Unless otherwise required by the context, the definitions set out in 40 Code of Federal  
12 Regulations § 745.223 (As set out in Vol. 61, No. 169, of the Federal Register, pages  
13 45813 to 45815, 29 August 1996) apply throughout this Article.

14 **"§ 130A-453.02. Purpose of Article.**

15 (a) This Article is enacted to establish an authorized State program under section  
16 404 of the Toxic Substances Control Act (15 U.S.C. § 2684), as enacted by Subtitle B,

1 section 1021 of the Residential Lead-Based Paint Hazard Reduction Act of 1992 (Pub. L.  
2 102-550, 106 Stat. 3916), that will apply in this State in lieu of the corresponding federal  
3 program administered by the federal Environmental Protection Agency. This Article  
4 requires a person who performs an inspection, risk assessment, or abatement of a child-  
5 occupied facility or target housing to be certified and establishes the procedure and  
6 requirements for certification. It also requires a person who conducts an abatement of a  
7 child-occupied facility or target housing to obtain a permit for the abatement.

8 (b) This Article does not require the inspection, risk assessment, or abatement of a  
9 child-occupied facility or target housing under any circumstance. G.S. 130A-131.5 and  
10 the rules adopted to implement that section authorize the Department to order an  
11 abatement to eliminate a lead poisoning hazard. This Article does not expand or  
12 otherwise change that authority.

13 **"§ 130A-453.03. Certification of individuals who perform inspections, risk**  
14 **assessments, or abatements.**

15 (a) Requirement. – An individual shall not perform or offer to perform an  
16 inspection, risk assessment, or abatement of target housing or a child-occupied facility  
17 unless the individual is certified by the Department to perform the activity. Performance  
18 of an inspection, risk assessment, or abatement encompasses a range of activities. To  
19 ensure proper performance of all aspects of an inspection, risk assessment, or abatement,  
20 the certification requirement imposed on an individual applies to each activity. The  
21 categories of individual certification are inspector, risk-assessor, designer, supervisor,  
22 worker, and any other category required by federal law. The category of risk-assessor  
23 includes the category of inspector. Thus, a person who is certified as a risk-assessor is  
24 not required to be certified as an inspector. Otherwise, an individual who performs or  
25 offers to perform activities within the scope of more than one category must be certified  
26 in each category.

27 (b) Exemption. – The certification requirement imposed by this section does not  
28 apply to an individual who performs an abatement of a residential dwelling the person  
29 owns and occupies as a residence, unless the residential dwelling is occupied by a person  
30 or persons other than the owner or the owner's immediate family while an abatement is  
31 being performed, or a child residing in the dwelling has been identified as having an  
32 elevated blood lead level.

33 **"§ 130A-453.04. Certification and other requirements of firms that perform**  
34 **inspections, risk assessments, or abatements.**

35 A firm or other entity shall not perform or offer to perform an inspection, risk  
36 assessment, or abatement of target housing or a child-occupied facility unless the entity is  
37 certified by the Department as a firm that is qualified to perform the activity. An entity  
38 that performs an inspection, risk assessment, or abatement of target housing or a child-  
39 occupied facility shall not use an individual to perform the inspection, risk assessment, or  
40 abatement unless the individual is certified by the Department to perform the activity.

41 **"§ 130A-453.05. Qualifications for certification of individuals and firms.**

42 To be certified under this Article, a person must meet the qualification requirements  
43 set by the Commission. Qualification requirements include education, training,

1 experience, the successful completion of an examination, and payment of any applicable  
2 fee.

3 **"§ 130A-453.06. Renewal of certification.**

4 A certification of an individual or a firm issued under this Article expires on the last  
5 day of the 12th month after the certification is issued. A certification may be renewed by  
6 paying the renewal fee and meeting any standards for renewal, such as refresher training,  
7 established by the Commission.

8 **"§ 130A-453.07. Accreditation of training courses and training providers.**

9 Completion of a training course on inspection, risk assessment, or abatement does not  
10 satisfy a training requirement that is a condition for certification under this Article unless  
11 both the course provider and the course have been accredited by the Department. The  
12 Commission shall establish the procedure and standards for a course provider and a  
13 course to be accredited.

14 **"§ 130A-453.08. Certification and accreditation fee schedule.**

15 (a) The Commission shall establish fees for the items listed in the table below. A  
16 fee for an item may not exceed the maximum amount set in the table. The fees for  
17 examination and certification apply to each category in which a person is examined for  
18 certification or is certified.

Item	Maximum Fee
<u>Examination for certification</u>	<u>\$75</u>
<u>Certification as worker</u>	<u>50</u>
<u>Certification in any category other</u> <u>than worker</u>	<u>150</u>
<u>Course provider accreditation</u>	<u>150</u>
<u>Initial course accreditation</u>	<u>2,000</u>
<u>Renewal course accreditation</u>	<u>750.</u>

27 (b) Use. – The fees imposed under this section are departmental receipts and shall  
28 be used by the Department to administer this Article.

29 (c) Exemptions. – The examination and certification fees imposed under this  
30 section do not apply to governmental regulatory personnel who perform inspections, risk  
31 assessments, or abatements solely for the purpose of determining compliance with  
32 applicable statutes or rules. The course provider fees imposed under this section do not  
33 apply to the State, a unit of local government, or a nonprofit entity. The course  
34 accreditation fees imposed under this section do not apply to a course offered by the  
35 State, a unit of local government, or a nonprofit entity.

36 **"§ 130A-453.09. Abatement permits.**

37 (a) Requirement. – No person shall conduct an abatement of target housing or a  
38 child-occupied facility unless the person has obtained a permit for the abatement from the  
39 Department. The Commission shall establish the procedure for obtaining a permit.

40 (b) Permit Fee. – An applicant for an abatement permit must pay an application fee  
41 to the Department. The fee is two percent (2%) of the contracted price for the corrective  
42 action to be performed in the abatement, not to exceed five hundred dollars (\$500.00).

1 The fee imposed under this section is a departmental receipt and shall be used by the  
2 Department to administer this Article.

3 (c) Exemption. – An individual who owns a single-family dwelling, conducts an  
4 abatement on the dwelling, and will reside in the dwelling after the abatement is  
5 completed is not required to obtain a permit to conduct the abatement, unless the  
6 dwelling is occupied by a person or persons other than the owner or the owner's  
7 immediate family while the abatement is being performed, or a child residing in the  
8 building has been identified as having an elevated blood lead level. If a permit is  
9 required, an individual who performs an abatement of a residential dwelling that the  
10 individual owns and occupies as a residence is not required to pay a fee for the permit.

11 **"§ 130A-453.10. Standards to ensure elimination of hazards; consumer information.**

12 (a) Standards. – The Commission shall establish standards to ensure that  
13 inspections, risk assessments, and abatements performed under this Article result in the  
14 elimination of lead-based paint hazards. An inspection, risk assessment, or abatement  
15 performed under this Article must be performed in accordance with these standards.

16 (b) Information. – The Department shall prepare a fact sheet on abatement for  
17 distribution to consumers. The sheet shall list the various measures for abatement of a  
18 child-occupied facility or target housing and give the relative cost of each measure. A  
19 person who is certified under this Article shall give a copy of the sheet to a person for  
20 whom the certified person performs an abatement.

21 **"§ 130A-453.11. Commission to adopt rules.**

22 The Commission shall adopt rules to implement this Article."

23 Section 2. G.S. 130A-22 is amended by adding a new subsection to read:

24 "(b3) The Secretary may impose an administrative penalty on a person who violates  
25 Article 19A of this Chapter or any rules adopted pursuant to Article 19A of this Chapter.  
26 Each day of a continuing violation is a separate violation. The penalty shall not exceed  
27 one thousand dollars (\$1,000) for each day the violation continues. The penalty  
28 authorized by this section does not apply to a person who is not required to be certified  
29 under this Article."

30 Section 3. G.S. 130A-453.11, as enacted by this act, and this section are  
31 effective when they become law. The remainder of this act becomes effective 1 July  
32 1998 unless, as of that date, Subpart L of Part 745 of Title 40 of the Code of Federal  
33 Regulations (40 C.F.R. § 745.220, et seq., as set out in the Federal Register of 29 August  
34 1996) is scheduled to become effective later than 1 September 1998, in which case the  
35 remainder of this act becomes effective when Subpart L of Part 745 of Title 40 of the  
36 Code of Federal Regulations becomes effective. This act does not affect the interim  
37 certification program requirements that apply before 7 July 1998 for individuals who  
38 perform lead-based paint activities funded by a grant from the federal government.
