

**GENERAL ASSEMBLY OF NORTH CAROLINA
SESSION 2001**

**SENATE BILL 1170
RATIFIED BILL**

AN ACT AUTHORIZING ADDITIONAL METHODS FOR BIDDING ON PUBLIC PROCUREMENT CONTRACTS, AND AMENDING THE LAW REGARDING BRAND NAME SPECIFICATION IN THE COMPETITIVE BIDDING PROCESS FOR PUBLIC CONTRACTS.

The General Assembly of North Carolina enacts:

SECTION 1. Article 8 of Chapter 143 of the General Statutes is amended by adding a new section to read:

"§ 143-129.9. Alternative competitive bidding methods.

(a) A political subdivision of the State may use any of the following methods to obtain competitive bids for the purchase of apparatus, supplies, materials, or equipment as an alternative to the otherwise applicable requirements in this Article:

(1) Reverse auction. – For purposes of this section, "reverse auction" means a real-time purchasing process in which bidders compete to provide goods at the lowest selling price in an open and interactive environment. The bidders' prices may be revealed during the reverse auction. A reverse auction may be conducted by the political subdivision or by a third party under contract with the political subdivision. A political subdivision may also conduct a reverse auction through the State electronic procurement system, and compliance with the procedures and requirements of the State's reverse auction process satisfies the political subdivision's obligations under this Article.

(2) Electronic bidding. – A political subdivision may receive bids electronically in addition to or instead of paper bids. Procedures for receipt of electronic bids for contracts that are subject to the requirements of G.S. 143-129 shall be designed to ensure the security, authenticity, and confidentiality of the bids to at least the same extent as is provided for with sealed paper bids.

(b) The requirements for advertisement of bidding opportunities, timeliness of the receipt of bids, the standard for the award of contracts, and all other requirements in this Article that are not inconsistent with the methods authorized in this section shall apply to contracts awarded under this section.

(c) Reverse auctions shall not be utilized for the purchase or acquisition of construction aggregates, including, but not limited to, crushed stone, sand, and gravel."

SECTION 2. G.S. 143-53(a)(5) reads as rewritten:

"(5) Prescribing conditions under which purchases and contracts for the purchase, installment or lease-purchase, rental or lease of equipment, materials, supplies or services may be entered into by means other than competitive bidding. ~~bidding, including, but not limited to, negotiation, reverse auctions, and acceptance of electronic bids.~~ Reverse auctions may only be utilized for the purchase or exchange of supplies, equipment, and materials as provided in G.S. 115C-522. Notwithstanding the provisions of subsections (a) and (b) of this section, any waiver of competition for the purchase, rental, or lease of equipment, materials, supplies, or services is subject to prior review by

the Secretary, if the expenditure exceeds ten thousand dollars (\$10,000). The Division may levy a fee, not to exceed one dollar (\$1.00), for review of each waiver application."

SECTION 3. Notwithstanding any other provision of law to the contrary, the Secretary may conduct a pilot program for reverse auctions. The reverse auctions shall be utilized only for the purchase or exchange of those supplies, equipment, and materials as provided in G.S. 115C-522, for use by the public school systems. The Secretary shall report the results of the pilot program to the Joint Select Committee on Information Technology, upon the convening of the 2003 General Assembly.

SECTION 4. G.S. 147-33.95 reads as rewritten:

"§ 147-33.95. Procurement of information technology.

(a) Notwithstanding any other provision of law, the Office of Information Technology Services shall procure all information technology for State agencies. For purposes of this section, agency means any department, institution, commission, committee, board, division, bureau, office, officer, or official of the State, unless specifically exempted in this Article. The Office shall integrate technological review, cost analysis, and procurement for all information technology needs of those State agencies in order to make procurement and implementation of technology more responsive, efficient, and cost-effective. All contract information shall be made a matter of public record after the award of contract. Provided, that trade secrets, test data, similar proprietary information, and security information protected under G.S. 132-6.1(c) may remain confidential.

(b) The Office shall have the authority and responsibility, subject to the provisions of this Part, to:

- (1) Purchase or to contract for, by suitable ~~means~~ means, including, but not limited to, negotiations, reverse auctions, and the solicitation, offer, and acceptance of electronic bids, and in conformity with G.S. 143-135.9, all information technology in the State government, or any of its departments, institutions, or agencies covered by this Part, or to authorize any department, institution, or agency covered by this Part to purchase or contract for such information technology.
- (2) Establish processes, specifications, and standards which shall apply to all information technology to be purchased, licensed, or leased in the State government or any of its departments, institutions, or agencies covered by this Part.
- (3) Comply with the State government-wide technical architecture, as required by the Information Resources Management Commission.

(c) For purposes of this section, "reverse auction" means a real-time purchasing process in which vendors compete to provide goods or services at the lowest selling price in an open and interactive electronic environment. The vendor's price may be revealed during the reverse auction. The Office may contract with a third-party vendor to conduct the reverse auction.

(d) For purposes of this section, "electronic bidding" means the electronic solicitation and receipt of offers to contract. Offers may be accepted and contracts may be entered by use of electronic bidding.

(e) The Office may use the electronic procurement system established by G.S. 143-48.3 to conduct reverse auctions and electronic bidding. All requirements relating to formal and competitive bids, including advertisement, seal, and signature, are satisfied when a procurement is conducted or a contract is entered in compliance with the reverse auction or electronic bidding requirements established by the Office.

(f) The Office may adopt rules consistent with this section."

SECTION 5. G.S. 133-3 reads as rewritten:

"§ 133-3. Specifications to carry competitive items; substitution of materials.

All architects, engineers, designers, or draftsmen, when providing design services, or writing specifications, directly or indirectly, for materials to be used in any city, county

or State work, shall specify in their plans the required performance and design characteristics of such materials. However, when it is impossible or impractical to specify the required performance and design characteristics for such materials, then the architect, engineer, designer or draftsman may use a brand name specification so long as they cite three or more examples of items of equal design or equivalent design, which would establish an acceptable range for items of equal or equivalent design. The specifications shall state clearly that the cited examples are used only to denote the quality standard of product desired and that they do not restrict bidders to a specific brand, make, manufacturer or specific name; that they are used only to set forth and convey to bidders the general style, type, character and quality of product desired; and that equivalent products will be acceptable. Where it is impossible to specify performance and design characteristics for such materials and impossible to cite three or more items due to the fact that there are not that many items of similar or equivalent design in competition, then as many items as are available shall be cited. On all city, county or State works, the maximum interchangeability and compatibility of cited items shall be required. The brand of product used on a city, county or State work shall not limit competitive bidding on future works. ~~If an architect, engineer, designer, draftsman or owner prefers a particular brand of material, then such brand shall be bid as an alternate to the base bid and in such case the base bid shall cite three or more examples of items of equal or equivalent design, which would establish an acceptable range for items of equal or equivalent design.~~ Substitution of materials, items, or equipment of equal or equivalent design shall be submitted to the architect or engineer for approval or disapproval; such approval or disapproval shall be made by the architect or engineer prior to the opening of bids. The purpose of this statute is to mandate and encourage free and open competition on public contracts."

SECTION 6. This act is effective when it becomes law.

In the General Assembly read three times and ratified this the 28th day of August, 2002.

Marc Basnight
President Pro Tempore of the Senate

James B. Black
Speaker of the House of Representatives

Michael F. Easley
