8 The General Assembly of North Carolina enacts:

9 **SECTION 1.** Part 2 of Article 16 of Chapter 153A of the General Statutes reads as
10 rewritten:

11 "Part 2. County Research and Production Service ~~Districts~~Districts and Urban Research
12 Service Districts.

13 "**§ 153A-311. Purposes for which districts may be established.**

14 The board of commissioners of any county may define a county research and production
15 service district in order to finance, provide, and maintain for the district any service, facility, or
16 function that a county or a city is authorized by general law to provide, finance, or maintain.
17 Such a service, facility, or function shall be financed, provided, or maintained in the district
18 either in addition to or to a greater extent than services, facilities, or functions are financed,
19 provided, or maintained for the entire county.

20 "**§ 153A-312. Definition of research and production service district.**

21 (a) Standards. – The board of commissioners may by resolution establish a research and
22 production service district for any area of the county that, at the time the resolution is adopted,
23 meets the following standards:

- 24 (1) All (i) real property in the district is being used for or is subject to covenants
25 that limit its use to ~~research~~research; or scientifically-oriented ~~production~~production or
26 for—production, technology, education; or associated commercial
27 commercial, residential, or institutional purposes—purposes; or for other
28 purposes specifically authorized pursuant to the terms and conditions of the
29 covenants, or (ii) if all the real property in the district is part of a
30 multijurisdictional industrial park that satisfies the criteria of
31 G.S. 143B-437.08(h), all such real property in the district is subject to
32 covenants that limit its use to research or scientifically oriented production,
33 associated commercial or institutional purposes, or other industrial and
34 associated commercial and institutional uses.

- 1 (2) The district (i) contains at least 4,000 acres or (ii) satisfies the criteria of
2 G.S. 143B-437.08(h).
- 3 (3) The district (i) includes research and production facilities that in
4 combination employ at least 5,000 persons or (ii) satisfies the criteria of
5 G.S. 143B-437.08(h).
- 6 ~~(4) All real property located in the district was at one time or is currently owned
7 by a nonprofit corporation, which developed or is developing the property as
8 a research and production park.~~
- 9 (5) A petition requesting creation of the district signed by at least fifty percent
10 (50%) of the owners of real property in the district who own at least fifty
11 percent (50%) of total area of the real property in the district has been
12 presented to the board of commissioners. In determining the total area of real
13 property in the district and the number of owners of real property, there shall
14 be excluded (1) real property exempted from taxation and real property
15 classified and excluded from taxation and (2) the owners of such exempted
16 or classified and excluded property.
- 17 ~~(6) The district has no more than 25 permanent residents.~~
- 18 (7) There exists in the district an association of owners and tenants, to which at
19 least seventy-five percent (75%) of the owners of nonresidential real
20 property belong, which association can make the recommendations provided
21 for in G.S. 153A-313. This subdivision shall not apply to a research and
22 production service district that satisfies the criteria of G.S. 143B-437.08(h).
- 23 ~~(8) There exists, or will exist when conveyed by the nonprofit corporation
24 described in subdivision (4) of this subsection, exist deed-imposed
25 conditions, covenants, restrictions, and reservations that apply to all real
26 property in the district other than property owned by the federal
27 government district, provided that the covenants, restrictions, and
28 reservations shall not be effective against the United States as long as it
29 owns or leases property in the district but shall apply to any subsequent
30 owner or lessee of such property.~~
- 31 (9) No part of the district lies within the boundaries of any incorporated city or
32 town.

33 The Board of Commissioners may establish a research and production service district if,
34 upon the information and evidence it receives, the Board finds that:

- 35 (1) The proposed district meets the standards set forth in this subsection; and
36 (2) It is impossible or impracticable to provide on a countywide basis the
37 additional or higher levels of services, facilities, or functions proposed for
38 the district; and
39 (3) It is economically feasible to provide the proposed services, facilities, or
40 functions to the district without unreasonable or burdensome tax levies.

41 (a1) Additional Uses. – A developer of a research and production service district
42 established prior to June 1, 2012, may amend the covenants that limit the use of real property in
43 the district to include any of the following uses: research; or scientifically-oriented production,
44 technology, education; or associated commercial, residential, or institutional purposes; or for
45 other purposes specifically authorized pursuant to the terms and conditions of the covenants. A
46 research and production service district is presumed to be in compliance with the standards in
47 subsection (a) of this section if the district met the standards in subsection (a) of this section, as
48 that subsection was enacted at the time of the establishment of the district.

49 (b) Multi-County Districts. – If an area that meets the standards for creation of a
50 research and production service district lies in more than one county, the boards of
51 commissioners of those counties may adopt concurrent resolutions establishing a service

1 district, even if that portion of the district lying in any one of the counties does not by itself
2 meet the standards. Each of the county boards of commissioners shall follow the procedure set
3 out in this section for creation of a ~~service~~-district.

4 If a multi-county ~~service~~-district is established, as provided in this subsection, the boards of
5 commissioners of the counties involved shall jointly determine whether the same appraisal and
6 assessment standards apply uniformly throughout the ~~district~~, district, or, in the case of a
7 multijurisdictional industrial park that satisfies the criteria of G.S. 143B-437.08(h), whether
8 there is a current need in each participating county to levy a tax, which determination shall be
9 made by each participating county's board of commissioners. This determination shall be set
10 out in concurrent resolutions of the boards. If the same appraisal and assessment standards
11 apply uniformly throughout the district, the boards of commissioners of all the counties shall
12 levy the same rate of tax for the district, so that a uniform rate of tax is levied for district
13 purposes throughout the district. If the boards determine that the same standards do not apply
14 uniformly throughout the district, the boards shall agree on the extent of divergence between
15 the counties and on the resulting adjustments of tax rates that will be necessary in order that an
16 effectively uniform rate of tax is levied for district purposes throughout the district. In the event
17 that one or more of the boards of commissioners in one or more of the counties participating in
18 a multijurisdictional industrial park that satisfies the criteria of G.S. 143B-437.08(h) determines
19 that there is no current need to levy a tax for all or part of the property meeting said
20 requirements within its jurisdictional boundaries, then that county or those counties shall be
21 under no obligation to do so. That county or those counties participating in a multijurisdictional
22 industrial park that satisfies the criteria of G.S. 143B-437.08(h) that choose to levy a tax for all
23 or part of the property meeting said requirements within its jurisdictional boundaries may do so
24 without setting an effectively uniform rate of tax as described above, provided such rate shall
25 not exceed the rate allowed in G.S. 143B-317(b).

26 The boards of commissioners of the counties establishing a multi-county ~~service~~-district
27 pursuant to this subsection may, by concurrent resolution, provide for the administration of
28 services within the district by one or more counties on behalf of all the establishing counties."

29 (c) Report. – Before the public hearing required by subsection (d), the board of
30 commissioners shall cause to be prepared a report containing:

- 31 (1) A map of the proposed district, showing its proposed boundaries;
- 32 (2) A statement showing that the proposed district meets the standards set out in
33 subsection (a); and
- 34 (3) A plan for providing one or more services, facilities, or functions to the
35 district.

36 The report shall be available for public inspection in the office of the clerk to the board for
37 at least four weeks before the date of the public hearing.

38 (d) Hearing and Notice. – The board of commissioners shall hold a public hearing
39 before adopting any resolution defining a ~~service~~-district under this section. Notice of the
40 hearing shall state the date, hour, and place of the hearing and its subject, and shall include a
41 map of the proposed district and a statement that the report required by subsection (c) is
42 available for public inspection in the office of the clerk to the board. The notice shall be
43 published at least once not less than one week before the date of the hearing. In addition, it
44 shall be mailed at least four weeks before the date of the hearing by any class of U.S. mail
45 which is fully prepaid to the owners as shown by the county tax records as of the preceding
46 January 1 (and at the address shown thereon) of all property located within the proposed
47 district. The person designated by the board to mail the notice shall certify to the board that the
48 mailing has been completed and his certificate is conclusive in the absence of fraud.

49 (e) Effective Date. – The resolution defining a ~~service~~-district shall take effect at the
50 beginning of a fiscal year commencing after its passage, as determined by the board of
51 commissioners.

1 **"§ 153A-313. ~~Advisory~~ Research and production service district advisory committee.**

2 (a) The board or boards of commissioners, in the resolution establishing a research and
3 production service district, shall also provide for an advisory committee for the district. Such a
4 committee shall have at least 10 members, serving terms as set forth in the resolution; one
5 member shall be the representative of the developer of the research and production ~~park-park~~
6 established as a research and production service district. The resolution shall provide for the
7 appointment or designation of a ~~chairman-chair.~~ The board of commissioners or, in the case of
8 a multi-county ~~service-district,~~ the boards of commissioners shall appoint the members of the
9 advisory committee. If a multi-county ~~service-district~~ is established, the concurrent resolutions
10 establishing the district shall provide how many members of the advisory committee are to be
11 appointed by each board of commissioners. Before making the appointments, the appropriate
12 board shall request the association of owners and tenants, required by G.S. 153A-312(a), to
13 submit a list of persons to be considered for appointment to the committee; the association shall
14 submit at least two names for each appointment to be made. Except as provided in the next two
15 sentences, the board of commissioners shall make the appointments to the committee from the
16 list of persons submitted. In addition, the developer of the research and production park shall
17 appoint one person to the advisory committee as the developer's representative on the
18 committee. In addition, in a single county ~~service-district,~~ the board of commissioners may
19 make two additional appointments of such other persons as the board of commissioners deems
20 appropriate, and in a multi-county ~~service-district,~~ each board of county commissioners may
21 make one additional appointment of such other person as that board of commissioners deems
22 appropriate. Whenever a vacancy occurs on the committee in a position filled by appointment
23 by ~~a-the~~ board of commissioners, the appropriate board, before filling the vacancy, shall request
24 the association to submit the names of at least two persons to be considered for the vacancy;
25 and the board shall fill the vacancy by appointing one of the persons so submitted, except that if
26 the vacancy is in a position appointed by the board of commissioners under the preceding
27 sentence of this section, the board of commissioners making that appointment shall fill the
28 vacancy with such person as that board of commissioners deems appropriate.

29 Each year, before adopting the budget for the ~~service-district~~ and levying the tax for the
30 district, the board or boards of commissioners shall request recommendations from the advisory
31 committee as to the level of services, facilities, or functions to be provided for the district for
32 the ensuing year. The board or boards of commissioners shall, to the extent permitted by law,
33 expend the proceeds of any tax levied for the district in the manner recommended by the
34 advisory ~~board-committee.~~

35 (b) In the event that the research and production service district satisfies the criteria of
36 G.S. 143B-437.08(h), the board of directors for the nonprofit corporation which owns the
37 industrial park shall serve as the advisory committee described in subsection (a) of this section.

38 **"§ 153A-314. Extension of service districts.**

39 (a) Standards. – A board of commissioners may by resolution annex territory to a
40 research and production service district upon finding that:

29 (a) Standards. – A board of commissioners may by resolution remove territory from a
30 research and production service district upon finding that:
