<b>EFFECTIVE DATE:</b> July 1, 2016					
<b>TECHNICAL CONSIDERATIONS:</b>					
None					

**FISCAL IMPACT SUMMARY:**

This incarceration note only addresses the criminal penalty changes proposed in Sections 1 and 2 of the bill. The fiscal impact of the remainder of the bill is addressed in a separate fiscal note attached to the bill.

The proposed bill may have a fiscal impact to address a new chargeable offense being enforced, adjudicated, and having penalties applied to those convicted of the new offense. However, given that there is no historical data on this new offense or similar offenses to use as a proxy for predicting the total number of new offenses, the Fiscal Research Division cannot reasonably estimate the total additional costs that may be incurred. The following costs may be incurred for every one person charged and convicted of this crime:

- Administrative Office of the Courts: \$165 per disposition
- Indigent Defense Services: \$188 per disposition
- Department of Public Safety (DPS) - Prison Section: No cost
- DPS - Community Corrections: Minimum of \$1,958 per conviction

Please see the Assumptions and Methodology section for additional information.

## **BILL SUMMARY:**

This bill proposes new Article 14A, Assumed Business Name Act. The bill would require any person engaging in business in this State under an assumed business name to file an assumed business name certificate in the office of the register of deeds of the county in which the person is or will be engaged in business prior to engaging in business in this State. The bill sets out how to file, execute, amend, and withdraw such a certificate and directs Registers of Deeds to report filed certificates to a central database established by the Secretary of State. The bill also makes conforming changes.

By repealing existing Article 14, the bill repeals the Class 3 Misdemeanor in G.S. 66-71 for failing to file an assumed business name certificate in accordance with existing G.S. 66-68(a) or G.S. 66-68(c). The bill proposes new G.S. 66-71.14, which would make it a Class 1 Misdemeanor for a person to sign a certificate under new Article 14A that the person knows is false in any material respect with intent that the certificate be delivered to the register of deeds for filing.

## **ASSUMPTIONS AND METHODOLOGY:**

### **General**

The Sentencing and Policy Advisory Commission prepares prison population projections for each bill containing a criminal penalty. The Commission assumes for such bills that expanding existing or creating new criminal offenses produces no deterrent or incapacitative effect on crime. Therefore, the Fiscal Research Division does not assume deterrent effects for any criminal penalty bill.

S.L. 2011-192 (H.B. 642), the Justice Reinvestment Act (JRA), made changes to North Carolina's court system, corrections system (both to prisons and probation), and to post-release supervision. Due to the lack of historical data about JRA implementation, it is not possible to estimate the number of prison beds that may be needed as a result of revocations.

JRA also created the Statewide Misdemeanant Confinement Program (SMCP) for housing misdemeanants with sentences between 90 and 180 days in county jails (misdemeanants with shorter sentences were already the responsibility of the counties). County participation in the program is voluntary. The SMCP pays participating counties for misdemeanants' housing, transportation, and medical costs. In 2014, the program was expanded to include all misdemeanants with sentences longer than 90 days. The Sentencing and Policy Advisory Commission does not track county jail capacity, so it is not possible to estimate the impact of new or increased misdemeanor penalties on county jails.

### **Judicial Branch**

The Administrative Office of the Courts (AOC) provides Fiscal Research with a fiscal impact analysis for most criminal penalty bills. For such bills, fiscal impact is typically based on the assumption that court time will increase due to anticipated increases in trials and corresponding increases in workload for judges, clerks, and prosecutors. This increased court time is also expected to result in greater expenditures for jury fees and indigent defense.

Section 1 of the bill repeals an existing Class 3 Misdemeanor. AOC does not have historical data about this penalty, which is some indication that it is infrequently charged. AOC provides estimates of the average cost to the court for a charge by offense class. The average cost to the court for every additional person charged with a Class 3 Misdemeanor is \$31. Repealing this penalty would avoid that cost and the receipt of any court costs assessed to the defendant.

Section 2 of the bill creates a new Class 1 misdemeanor offense. Because this is a new offense, AOC does not have historical data upon which to estimate the number of charges that might occur. For every additional person charged with a Class 1 misdemeanor, the average cost to the court would be \$165.

The Office of Indigent Defense Services (IDS) has provided Fiscal Research with the frequency and cost of indigent defense services for each level of crime, including the cost differentials for district and superior court with and without a trial and the percentage of cases handled in each category. Fiscal Research used this data to calculate a weighted average of IDS costs. In FY 2011-12, 39% of Class 1 misdemeanor cases were handled through IDS. The weighted average cost of a new Class 1 Misdemeanor is \$188 per case for a private appointed counsel (PAC) attorney. This estimate assumes the appointment of a PAC attorney. In districts that have Public Defender offices, cases may be handled by those offices. In those instances, this cost may not be incurred.

### **Department of Public Safety –Prison Section**

This bill creates a new Class 1 misdemeanor offense. The North Carolina Sentencing and Policy Advisory Commission expects no impact on the prison population because all misdemeanor offenders who receive active sentences will serve them in the local jail. Therefore, the Department of Public Safety does not anticipate an impact on prison custody projections.

### **Department of Public Safety – Community Correction Section**

All misdemeanor offenders may be given non-active (intermediate or community) sentences exclusively, or in conjunction with imprisonment (split-sentence). Sanctions include electronic house arrest, community service, substance abuse treatment, participation in educational or vocational skills development, payment of court costs, fines, and restitution, and short-term jail sentences not exceeding six days per month.

JRA essentially eliminated the distinction between “community” and “intermediate” supervision. Under structured sentencing, the two types of supervision were each defined by a set of specific sanctions. Under JRA, both community and intermediate probation may now include electronic monitoring, short-term periods of confinement, substance abuse assessment, monitoring, and treatment, participation in educational programs or vocational skills development. Whether a probationer is subject to more stringent conditions is determined by the results of a risk-needs assessment administered by the Department of Public Safety.

All types of post-release supervision, including intermediate or community sanctions, are supervised by the Community Corrections Section (CCS); CCS also oversees community service. General post-release supervision and supervision of intermediate and community offenders by a probation officer costs \$130.50 per offender, per month; no cost is assumed for those receiving unsupervised probation, or who are only ordered to pay fines, fees, or restitution. Total costs are based on average supervision length and the percentage of offenders (per offense class) sentenced to active sentences requiring post-release supervision, intermediate sanctions and supervised probation.

In FY 2013-14, 30% of Class 1 misdemeanor offenders received active sentences with an average sentence of 37 days; 70% received probation. Active misdemeanor sentences of less than 180 days are served in local jails and do not require any post-release supervision. The average length of probation imposed for this offense class was 15 months. Therefore, at a minimum, one conviction leading to probation that results from this bill will require at least 15 months of supervision. The cost of 15 months of supervision is \$1,958 per offender (\$130.50 per month times 15 months).<sup>1</sup>

---

<sup>1</sup> Due to the effective date of December 1, 2015 and the typical lag time between charge and conviction (6 months), little impact is assumed for CCS in FY 2015-16. Though some offenders may come under CCS supervision during this time, this note assumes an even entry over the course of FY 2016-17.
