30 **PART I. OMITTED MEMBERSHIP SERVICE**

31 **SECTION 1.(a)** G.S. 135-4(v) reads as rewritten:

32 "(v) Omitted Membership Service. – A member who had service as an employee as
33 defined in G.S. 135-1(10) and G.S. 128-21(10) or as a teacher as defined in G.S. 135-1(25) and
34 who was omitted from contributing membership through error may be allowed membership
35 service, after submitting clear and convincing evidence of the error, as follows:

- 1 (1) Within 90 days of the omission, by the payment of employee and employer
2 contributions that would have been paid; or
- 3 (2) After 90 days and prior to three years of the omission, by the payment of the
4 employee and employer contributions that would have been paid plus interest
5 compounded annually at a rate equal to the greater of the average yield on the
6 pension accumulation fund for the preceding calendar year or the actuarial
7 investment rate-of-return assumption, as adopted by the Board of Trustees; or
- 8 (3) After three years of the omission, by the payment of an amount equal to the
9 full cost of the service credits calculated on the basis of the assumptions used
10 for the purposes of the actuarial valuation of the system's liabilities, and shall
11 take into account the additional retirement allowance arising on account of
12 such additional service credit commencing at the earliest age at which a
13 member could retire on an unreduced retirement allowance, as determined by
14 the Board of Trustees upon the advice of the consulting actuary, plus an
15 administrative fee to be set by the Board of Trustees. Notwithstanding the
16 foregoing provisions of this subdivision that provide for the purchase of
17 service credits, the terms "full cost", "full liability", and "full actuarial cost"
18 include assumed annual post-retirement allowance increases, as determined
19 by the Board of Trustees, from the earliest age at which a member could retire
20 on an unreduced service allowance.

21 Nothing contained in this subsection shall prevent an employer or member from paying all
22 or a part of the cost of the omitted membership service; and to the extent paid by the employer,
23 the cost paid by the employer shall be credited to the pension accumulation fund; and to the
24 extent paid by the member, the cost paid by the members shall be credited to the member's
25 annuity savings account; provided, however, an employer does not discriminate against any
26 member or group of members in his employ in paying all or any part of the cost of the omitted
27 membership service. Upon request from an employee, an employer shall provide written
28 notification of the total hours worked in the preceding 12 months to an employee in a position
29 classified as part-time. An employer shall provide a copy of the notification to the Retirement
30 Systems Division upon request. In the event that an employee was classified as part-time in error
31 and was not eligible to earn membership service due to that error, and the employee has paid a
32 lump sum equal to the applicable employee contributions as set forth in subdivision (2) of this
33 subsection within one year of the omission, the employer shall be required to pay the applicable
34 employer contributions as set forth in subdivision (2) of this section."

35 **SECTION 1.(b)** G.S. 128-26(m) reads as rewritten:

36 "(m) Omitted Membership Service. – A member who had service as an employee as
37 defined in G.S. 135-1(10) and G.S. 128-21(10) or as a teacher as defined in G.S. 135-1(25) and
38 who was omitted from contributing membership through error may be allowed membership
39 service, after submitting clear and convincing evidence of the error, as follows:

- 40 (1) within 90 days of the omission, by the payment of employee and employer
41 contributions that would have been paid; or
- 42 (2) after 90 days and prior to three years of the omission, by the payment of the
43 employee and employer contributions that would have been paid plus interest
44 compounded annually at a rate equal to the greater of the average yield on the
45 pension accumulation fund for the preceding calendar year or the actuarial
46 investment rate-of-return assumption, as adopted by the Board of Trustees; or
- 47 (3) after three years of the omission, by the payment of an amount equal to the
48 full cost of the service credits calculated on the basis of the assumptions used
49 for the purposes of the actuarial valuation of the System's liabilities, and shall
50 take into account the additional retirement allowance arising on account of
51 such additional service credit commencing at the earliest age at which a

1 member could retire on an unreduced retirement allowance, as determined by
2 the Board of Trustees upon the advice of the consulting actuary, plus an
3 administrative fee to be set by the Board of Trustees. Notwithstanding the
4 foregoing provisions of this subdivision that provide for the purchase of
5 service credits, the terms "full cost", "full liability", and "full actuarial cost"
6 include assumed annual post-retirement allowance increases, as determined
7 by the Board of Trustees, from the earliest age at which a member could retire
8 on an unreduced service allowance.

9 Nothing contained in this subsection shall prevent an employer or member from paying all
10 or a part of the cost of the omitted membership service; and to the extent paid by the employer,
11 the cost paid by the employer shall be credited to the pension accumulation fund; and to the
12 extent paid by the member, the cost paid by the members shall be credited to the member's
13 annuity savings account; provided, however, an employer does not discriminate against any
14 member or group of members in his employ in paying all or any part of the cost of the omitted
15 membership service. In the event an employer pays all or a part of the full actuarial cost as
16 determined in subdivision (3) of this subsection, the employer may, at its option, pay such amount
17 either in a lump sum or by increasing its "accrued liability contribution" for the remainder of its
18 accrued liability period. In the event an employer has satisfied its accrued liability contribution,
19 the employer may amortize its portion of the full actuarial cost over a period not to exceed ten
20 years. The expense of making an actuarial valuation to determine the accrued liability
21 contribution or the additional accrued liability contribution, required to amortize the portion of
22 the full actuarial cost paid by the employer, shall be paid by the employer in a lump sum at the
23 time of the actuarial valuation. Upon request from an employee, an employer shall provide
24 written notification of the total hours worked in the preceding 12 months to an employee in a
25 position classified as part-time. An employer shall provide a copy of the notification to the
26 Retirement Systems Division upon request. In the event that an employee was classified as
27 part-time in error and was not eligible to earn membership service due to that error, and the
28 employee has paid a lump sum equal to the applicable employee contributions as set forth in
29 subdivision (2) of this subsection within one year of the omission, the employer shall be required
30 to pay the applicable employer contributions as set forth in subdivision (2) of this subsection."

44 government unit from becoming a distressed unit.

45 (2) Merger/regionalization feasibility grant. – A merger/regionalization grant is
46 available to determine the feasibility of consolidating the management of
47 multiple water or wastewater systems into a single operation or to provide
48 regional treatment or water supply and the best way of carrying out the

14 must meet the criteria set under federal law. The Department is directed to establish through
15 negotiation with the United States Environmental Protection Agency the criteria for evaluating
16 applications for loans and grants from the CWSRF and the DWSRF and the priority assigned to
17 the criteria. The Department must incorporate the negotiated criteria and priorities in the
18 Capitalization Grant Operating Agreement between the Department and the United States
19 Environmental Protection Agency. The criteria and priorities incorporated in the Agreement
20 apply to a loan or grant from the CWSRF or the DWSRF. The priority considerations in

25 Drinking Water Reserve.

26 (c) Viable Utility Reserve. – The Local Government Commission and the Authority shall
27 jointly develop evaluation criteria for grants from the Viable Utility Reserve. These evaluation

33 federal law.

34 (b) Certain Reserve Cost Limit. – The amount of a loan or grant from the Wastewater
35 Reserve or the Drinking Water Reserve may not exceed the construction costs of a project. A
36 loan or grant from one of these Reserves is available only to the extent that other funding sources
37 are not reasonably available to the applicant.

38 (b1) Viable Utility Reserve Cost Limit. – The amount of a grant from the Viable Utility
