"(a) Beginning on September 1, 2018, the Department shall calculate on a quarterly basis a solvency range for each LME/MCO as a sum of the following figures to produce upper and lower range values:

If an LME/MCO experiences extenuating circumstances supported by actuarial documentation, then the Department may utilize a percentage other than six and eight-tenths (6.8%) for that LME/MCO.
- (2) Net operating liabilities figure. – The net operating liabilities figure shall be calculated by subtracting noncash current accounts receivable from the nonclaims current liabilities, as reported on the LME/MCO's most recent balance sheet. If the noncash accounts receivable are greater than the nonclaim liabilities, then the value for the net operating liabilities figure is zero.
- (3) Catastrophic or extraordinary events range. – The catastrophic or extraordinary events range shall be calculated as the range between a lower figure and an upper figure. The lower figure shall be calculated by multiplying an LME/MCO's service expenditures from the preceding 12 months by four and fifteen-hundredths percent (4.15%). projecting the net loss for an LME/MCO, the Department shall use the net loss of the LME/MCO in the preceding 12 months adjusted for any changes in single-stream funding, intergovernmental transfers, or other factors known to the Department that will impact the LME/MCO's net loss over the subsequent 24 months. If a net profit is projected for an LME/MCO, then this figure is zero.

- (6) Reinvestment plan figure. – The reinvestment plan figure is the amount required for all qualifying expenditures contained in an LME/MCO's reinvestment plans over the subsequent 36 months. To qualify as an expenditure under this subdivision, the expenditure must be related to one of the following:
