All of the following shall apply to the contribution-based benefit cap under this subsection:

(1) The Board of Trustees shall adopt a contribution-based benefit cap factor recommended by the actuary, based upon actual experience, such that no more than three-quarters of one percent (0.75%) of retirement allowances are expected to be capped. The Board of Trustees shall modify such factors every five years, as shall be deemed necessary, based upon the five-year experience study as required by G.S. 135-6(n). Prior to establishing a service retirement allowance under this section, the Board ~~shall~~ shall do all of the following:

~~(1)~~a. Determine an amount equal to the member's accumulated contributions as required under G.S. 135-8(b)(1) for all years during which the member earned membership service, other than service earned through armed service credit under G.S. 135-4(f), G.S. 135-4(g), or G.S. 135-4.5, used in the calculation of the retirement allowance that the member would receive under this section.

~~(2)~~b. Determine the amount of a single life annuity that is the actuarial equivalent of the amount determined under ~~subdivision (1)~~ sub-subdivision (1)a. of this subsection, adjusted for the age of the member at the time of retirement or, when appropriate, the age at the time of the member's death.

~~(3)~~c. Multiply the annuity amount determined under ~~subdivision (2)~~ sub-subdivision (1)b. of this subsection by the contribution-based benefit cap factor.

~~(4)~~d. Determine the amount of the retirement allowance that results from the member's membership ~~service~~, service to which the member would be entitled but for the adjustment under this subsection. 2. The amount shall include the effect of any percentage reduction that applies to the member's service retirement allowance by virtue of the member's age or amount of

1 five years, as shall be deemed necessary, based upon the five-year experience  
2 study as required by G.S. 128-28(o). Prior to establishing a service retirement  
3 allowance under this section, the Board ~~shall~~ shall do all of the following:

4 ~~(1)~~a. Determine an amount equal to the member's accumulated  
5 contributions as required under G.S. 128-30(b)(1) for all years during

7 earned through armed service credit under G.S. 128-26(a1),  
8 G.S. 128-26(a2), G.S. 128-26(j1), or G.S. 128-26.5, used in the  
9 calculation of the retirement allowance that the member would receive  
10 under this section.

11 ~~(2)~~b. Determine the amount of a single life annuity that is the actuarial  
12 equivalent of the amount determined under ~~subdivision (1)~~  
13 sub-subdivision (1)a. of this subsection, adjusted for the age of the  
14 member at the time of retirement or, when appropriate, the age at the  
15 time of the member's death.

16 ~~(3)~~c. Multiply the annuity amount determined under ~~subdivision (2)~~  
17 sub-subdivision (1)b. of this subsection by the contribution-based  
18 benefit cap factor.

19 ~~(4)~~d. Determine the amount of the retirement allowance that results from  
20 the member's membership ~~service,~~ service to which the member would  
21 be entitled but for the adjustment under this subsection. This amount  
22 shall be calculated in the same manner as the member's service  
23 retirement allowance, with the following exceptions:

24 1. The applicable percentage of the member's average final  
25 compensation shall be multiplied by the number of years of  
26 membership service, rather than the number of years of  
27 creditable ~~service;~~ the service.

28 2. The amount shall include the effect of any percentage  
29 reduction that applies to the member's service retirement  
30 allowance by virtue of the member's age or amount of  
31 creditable service as of the service retirement ~~date;~~ and the  
32 date.

33 3. The amount shall not be adjusted for an optional allowance  
34 elected under subsection (g) of this section.

35 ~~(2)~~ The product of the multiplication in ~~subdivision (3)~~ sub-subdivision (1)c. of  
36 this subsection is the member's contribution-based benefit cap. If the amount  
37 determined under ~~subdivision (4)~~ sub-subdivision (1)d. of this subsection  
38 exceeds the member's contribution-based benefit cap, then the member's  
39 retirement allowance shall be reduced by an amount equal to the difference  
40 between the contribution-based benefit cap and the amount determined under  
41 ~~subdivision (4)~~ sub-subdivision (1)d. of this subsection.

42 ~~(3)~~ Notwithstanding ~~the foregoing,~~ anything to the contrary under subdivisions

44 average final compensation of less than one hundred thousand dollars  
45 (\$100,000), as ~~hereinafter indexed,~~ indexed under this subdivision, shall not

49 the percent change between the June Consumer Price Index in the year prior  
50 to retirement and the June Consumer Price Index in the fiscal year most

1 recently ended, calculated to the nearest tenth of a percent (0.1%), provided  
2 that this percent change is positive.

3 (4) ~~Notwithstanding the foregoing, anything to the contrary under subdivisions~~  
4 (1) through (3) of this subsection, the retirement allowance of a member who  
5 became a member before January 1, 2015, or who has not earned at least five  
6 years of membership service in the Retirement System after January 1, 2015,  
7 shall not be reduced; however, the member's last employer, or if the member's  
8 last employer did not report to the retirement system any compensation paid  
9 to the member during the period used to compute the member's average final  
10 compensation, the member's employer or employers who reported  
11 compensation to the member during such period, shall be required to make an  
12 additional contribution as specified in G.S. 128-30(g)(2)b., if applicable.

13 (5) For any member whose retirement allowance was (i) initially restored to the  
14 pre-contribution-based benefit cap level, in accordance with G.S. 128-26(y),  
15 (ii) subsequently suspended for a period of at least three years due to the  
16 member being restored to service, and (iii) recalculated based on becoming  
17 reemployed for at least three years on the basis of the member's compensation  
18 and service before and after the period of prior retirement without restrictions,  
19 the amount required to restore the member's benefit to the  
20 pre-contribution-based benefit cap level shall be reduced on a dollar-for-dollar
