STUDY ON HUMAN TRAFFICKING REPORTING

SECTION 2.(a) The General Assembly finds all of the following:

(1) Human trafficking is a pervasive crime that often goes undetected. National statistics indicate that hundreds of thousands of people are trafficked in the United States each year, yet the vast majority are never identified.

(2) North Carolina is recognized as a leader in efforts to combat human trafficking; however, frontline professionals, including law enforcement officers, healthcare providers, teachers, and social workers, often lack the training, tools, and resources necessary to adequately support victim-survivors and hold traffickers accountable. Services remain fragmented and limited, despite a strong desire for collaboration and coordination across sectors.

(3) Advances in the field have produced effective models for data collection, needs assessment, and landscape analysis at the State, county, and regional levels. These efforts help guide statewide partners in addressing a complex and constantly evolving issue.

SECTION 2.(b) The North Carolina Human Trafficking Commission (Commission) shall conduct a study on human trafficking needs in the State, including information on the development process for a statewide human trafficking reporting and response system (system). After the Commission completed the study, the Commission is encouraged to begin facilitating stakeholder collaboration on the development of a system that facilitates referral to the National Human Trafficking hotline for crisis support as necessary. It is the intent of the General Assembly to establish a system that will (i) notify law enforcement and child protection officials of high

priority reports, (ii) provide a secure dashboard for authorized personnel to view, triage, and respond to reports, and (iii) support real-time communication between investigators and survivors or reporters with consent.

SECTION 2.(c) This section is effective when it becomes law.
