The General Assembly of North Carolina enacts:

**HUMAN TRAFFICKING REPORTING AND RESPONSE SYSTEM**

**SECTION 1.(a)** This section shall be known as "The Human Trafficking Identification and Reporting Act."

**SECTION 1.(b)** The General Assembly finds all of the following:

- (1) Human trafficking is a pervasive crime that often goes undetected. National statistics indicate that hundreds of thousands of people are trafficked in the United States each year, yet the vast majority are never identified. Existing reporting systems, including the National Human Trafficking Hotline, are critical but rely primarily on phone calls or text messages, which many witnesses or victims are unable or unwilling to make.
- (2) Frontline professionals — law enforcement officers, healthcare providers, teachers and social workers — often lack a unified, secure, trauma-informed system to document and triage suspected trafficking. Current approaches are fragmented and underutilized, resulting in missed opportunities to protect victims and prosecute.
- (3) Advances in technology now permit the development of secure, multilingual platforms that allow anonymous reporting, AI-assisted triage, and real-time routing of tips to appropriate authorities. Such platforms can empower both the public and professionals to identify suspected trafficking and connect survivors with support.

**SECTION 1.(c)** G.S. 7A-354(c) is amended by adding a new subdivision to read:

1           "(8) To develop and implement a human trafficking reporting and response system  
2           in accordance with G.S. 7A-354.2."

3           **SECTION 1.(d)** Article 29 of Chapter 7A of the General Statutes is amended by  
4 adding a new section to read:
